Find The Missing Millions

Dear Reader,

Pakistan is facing a "Hepatitis Epidemic" at present where an estimate is that every 10th Pakistani tests positive for either Hepatitis B or C.

The Health Foundation (THF) is the only non-profit Civil Society organization working directly with communities for free treatment of Hepatitis in Pakistan since more than a decade.

THF was fortunate to form a very coherent team which worked relentlessly towards the great cause to eliminate / minimize spread of Hepatitis B & C in its sphere of influence. A key focus area is awareness on a large scale to masses about the menace of Hepatitis B & C and the ways and means to prevent and treat it.

Our goal remains to make free treatment easily accessible in all affected parts of Pakistan so that nobody loses their fight to this disease feeling helpless because of lack of funds or medicines. This goal can only be achieved through incessant hard work on our part and prolonged support in all forms on yours.

THF AROUND THE GLOBE...LAUNCH OF UK CHAPTER

The Health Foundation hosts introductory dinner in London to launch its newly registered UK Chapter!

We are very pleased to announce the successful establishment of our UK Chapter.

It was an honor to welcome Mr. Nafees Zakaria, High Commissioner of Pakistan to the UK, as the Chief Guest. Other esteemed guests included Professor Graham Foster (National clinical lead for NHS England Hepatitis C program), Dr. Saad Khalid Niaz (Director THF), Mr. Zafar Sultan, Dr. Abdullah Hoodbuoy and other invaluable friends and supporters of THF.

The support pledged by the guests was very heartwarming and showed the commitment of the Pakistani community abroad to do whatever they can to help credible organizations working for the betterment of the deserving people back home.

It is hoped that this Charity would play a irrefutable part in raising much needed funds to support the Hepatitis elimination efforts being done by THF in Pakistan.
