INVEST IN ELIMINATING HEPATITIS

Dear Reader,

In the span of nearly twelve years, The Health Foundation has played a major role in transforming and saving lives of Hepatitis patients across Pakistan.

Our vision is "A Hepatitis Free Pakistan".

PROUD MOMENT

The Health Foundation received "Staff Favorite organization" badge by Global Giving for the year 2019.

Our dedicated team is working hard 24/7 to serve humanity and looking forward to receiving this award in the upcoming years too.

Reaching the Neglected Slums of Karachi - Developing effective partnerships is the Key!

The Health Foundation (THF) has signed an MoU with ZMT (Zubaida Machiyara Trust) to set up Hepatitis C sentinel treatment centers in different slums of Karachi to cater to the rising number of Hepatitis patients in these areas.

Every person is screened as an initial step when visiting these centers. Patients found positive are linked to quality and timely treatment. All services are provided under one roof.

HEPATITIS NATIONAL STATISTICS

- Pakistan now ranks 2nd in the world for Hepatitis C prevalence which is a very alarming situation
- In Pakistan, more than 12 million people are affected by Hepatitis B and C
- Every 10th Person tests positive for either Hepatitis B or Hepatitis C positive in the country
- Every 30 sec, 1 person dies from Hepatitis in the Asia Pacific region which is 3X higher than HIV/AIDS

OUR PATIENT OUR PRIORITY

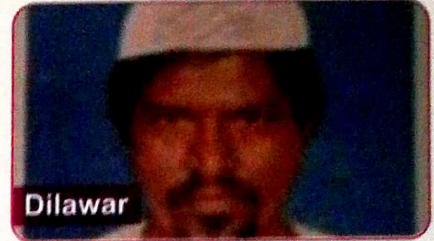

Behram

A watchman in a private company was not feeling well so we took him to a nearby Hospital and came to know that liver was not functioning properly and was diagnosed with Hepatitis C.

The treatment prescribed by the doctor was very expensive. A family friend of ours informed us that he knows an Organization named The Health Foundation and they provide free treatment for non-affording patients.

Wife of Dilawar residing in Gulzar Colony explored the working of The Health Foundation on Hepatitis in their area when she attended an awareness session and came to this "Silent Killer" and the Free Treatment which was being provided for the non-affording patients. I was suffering from stomach ache and went to PHRC where a few tests were conducted. I was shattered to see that I was suffering from Hepatitis C. My treatment started and after a few months I recovered fully. I thank The Health Foundation for giving me a chance at living again.

Dilawar

Sabhagi

I was having pain in stomach and went to see doctor at The Health Foundation Hep C sentinel site located at UC Kandhari, Sanghar. After few test prescribed by the doctor I came to know that I was diagnosed with Hepatitis C. The news devastated me. Passing each day of life is a big challenge for me as I am too poor. The Health Foundation came to my aid and took care of all the treatment and I did not have to spend a single penny. I would like to thank THF for their support. Now I am living happily with my family.

EVENTS

WHO CONFERENCE IN LAHORE

The WHO conference was held in Lahore where representatives gathered from across the Eastern Mediterranean Region to discuss the progress towards **Hepatitis Elimination**.

Dr. Laila Rizvi, Executive Director of THF gave a presentation on **"Moving forward and leaving no one behind"**, which was very well received by all participants. The Health Foundation was acknowledged for its results oriented work.

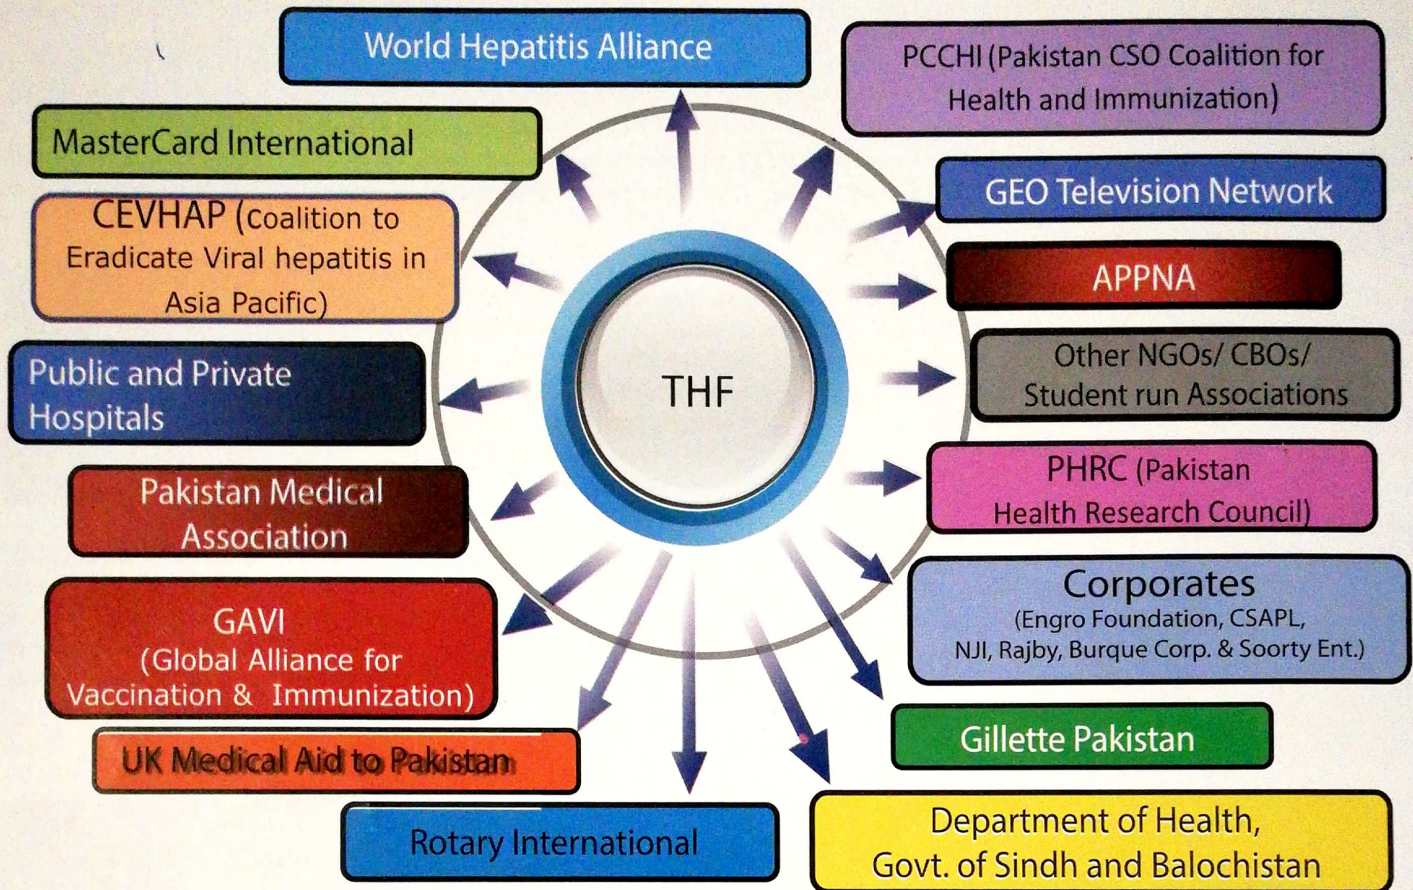

FUNDRAISER WITH SEVEN EYES IN KARACHI

A fundraising event was successfully held in Karachi, Pakistan. Internationally recognized group, Seven Eyes, performed at the event. Funds collected used for Hepatitis elimination efforts being undertaken by THF in Pakistan.
